PRO side carrier

~ 0.75 h.	EASY DIFFICULT

ENGLISH ·Thank you for choosing this premium product from SW-MOTECH. Visit our online shop for more information (e.g. model assignments). Required documents (e.g. national type approval) are available there for you to download.
Please read and understand all the instructions, safety information and warnings in these mounting instructions before mounting and using the product in order to avoid injury and damage. Keep these mounting instructions for reference.
This product was developed for vehicles in factory condition. Compatibility with original accessories or accessories from other manufacturers cannot be guaranteed.
These mounting instructions have been prepared to the best of our current knowledge. No legal claims relating to accuracy can be made. Errors and omissions excepted. We reserve the right to make technical and design changes. The copyright is held by SW-MOTECH.

SAFETY WARNING SYMBOL

⚠ **This warning symbol is used in these mounting instructions to warn of deadly dangers, injuries or other hazards. The words DANGER, WARNING or CAUTION are used as part of this warning symbol to convey important safety messages and information relating to the installation and use of this product. These words, together with the safety warning symbol, mean:**

⚠ **DANGER:** Indicates a hazardous situation which, if not avoided, will result in death or serious injury!

⚠ **WARNING:** Indicates a hazardous situation which, if not avoided, may result in death or serious injury!

⚠ **CAUTION:** Indicates a hazardous situation which, if not avoided, may result in minor or moderate injury!

⚠ ***NOTE:*** Important information, but not relating to a risk of death or injury (property damage only)!

GENERAL INFORMATION

⚠ **WARNING: Assembly and/or maintenance of this product requires advanced technical skill, appropriate tools, and a good understanding of tool usage and torque specifications. For your own safety, SW-MOTECH recommends having the assembly and/or maintenance carried out by a qualified and certified motorcycle workshop.**

⚠ **WARNING: If you do choose to assemble this product yourself, carefully and fully read the mounting instructions before assembly and use, and follow all instructions to avoid serious injury or death. Also observe all relevant information in the vehicle manual when mounting or using the product. IF YOU DO NOT UNDERSTAND ANY PART OF THESE MOUNTING INSTRUCTIONS OR NEED AN EXPLANATION AS TO A SPECIFIC INSTRUCTION, DO NOT ATTEMPT TO INSTALL THIS PRODUCT WITHOUT CONSULTING SW-MOTECH FOR ASSISTANCE!**

PREPARATION: Read the mounting instructions carefully and make sure that all parts on the parts list are available.

⚠ **CAUTION: Ensure that your vehicle is standing securely. Switch off the engine and remove the ignition key. Allow the engine/exhaust to cool down if necessary. Disconnect the battery when working on the electrical system. Only use proper tools and always wear safety goggles and gloves during assembly and maintenance. Have a second person help you with assembly and maintenance.**

ASSEMBLY: All parts and connections removed from the vehicle must be reinstalled according to the vehicle manufacturer's specifications or replaced with parts and hardware supplied by SW-MOTECH.

⚠ **WARNING: Secure all threads with a medium-strength liquid threadlocker, unless otherwise specified.**

⚠ **DANGER: Tightening torques not defined by SW-MOTECH must be obtained from the vehicle manufacturer or a certified motorbike workshop.**

FUNCTIONAL CHECK: After mounting the product, ensure that no moving parts are obstructed and that the function of the vehicle is not impeded. Cables and hoses must not rub against each other and/or be hindered in any way.

⚠ **WARNING: Carry out a comprehensive functionality check before you start to drive. Check the tightening torque of all connections and the tight fit of the product after the first 50 km and then at regular intervals. Mounted accessories can change the handling and stability of the vehicle.**

⚠ WARNING: Always wear eye and hand protection!
⚠ WARNING: Always use the proper tools!

Opening the lid

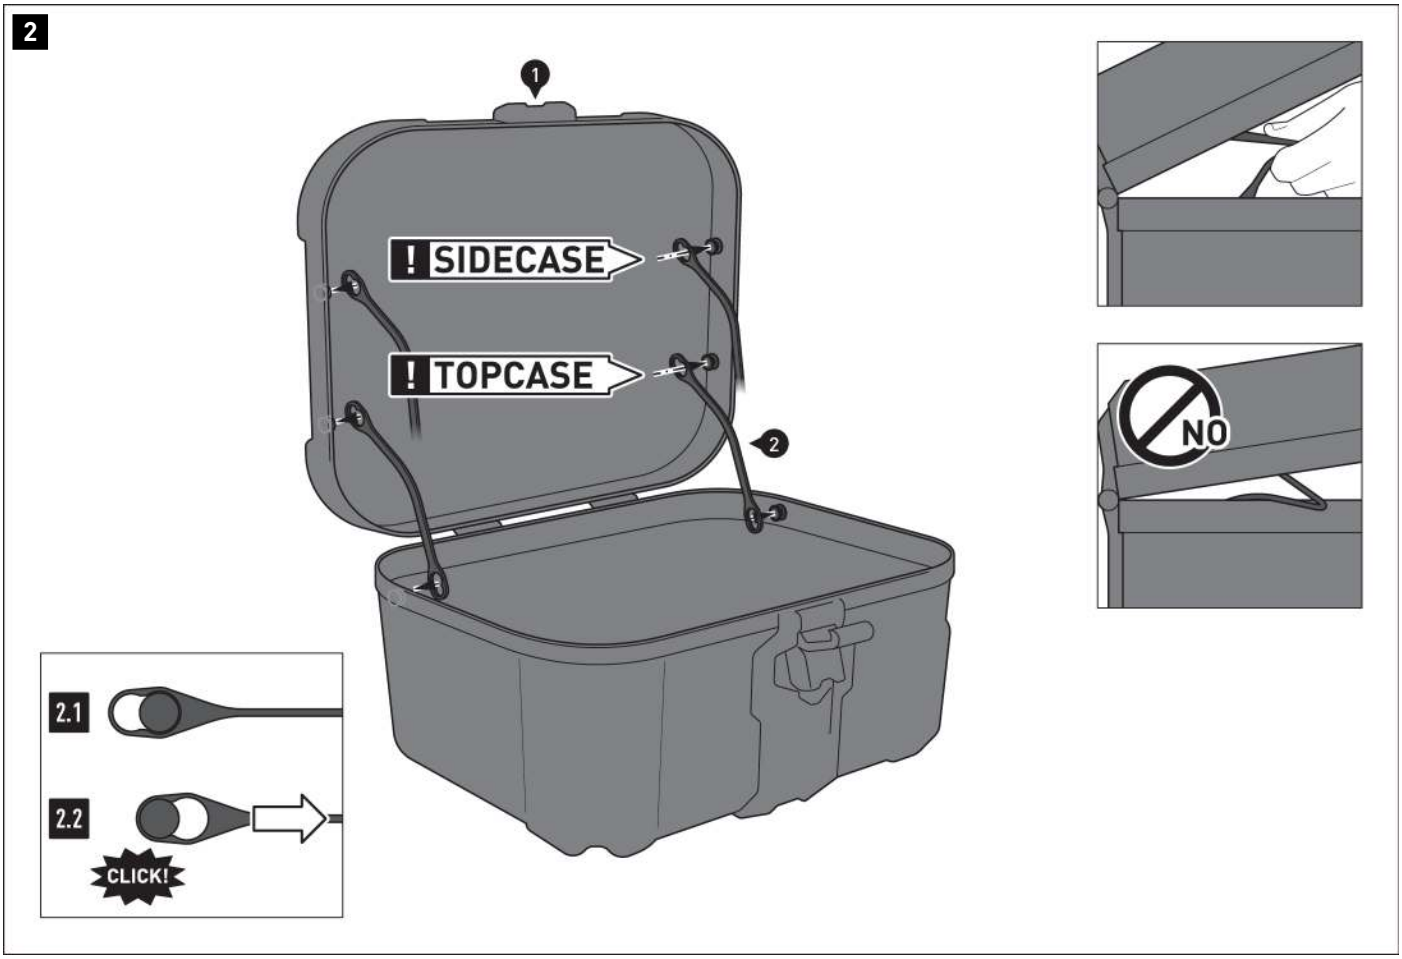

1.1 - Press the DUSC release button (1) and pull the lid latch buckle to the open position.

1.2 - Remove the latch buckle from the corresponding bracket and open the lid.

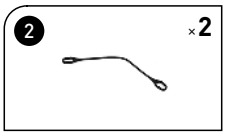

The content translation is automated.
© SW-MOTECH GmbH & Co. KG

Errors and omissions excepted
Subject to technical and design changes.

2

Installing the lid limiter

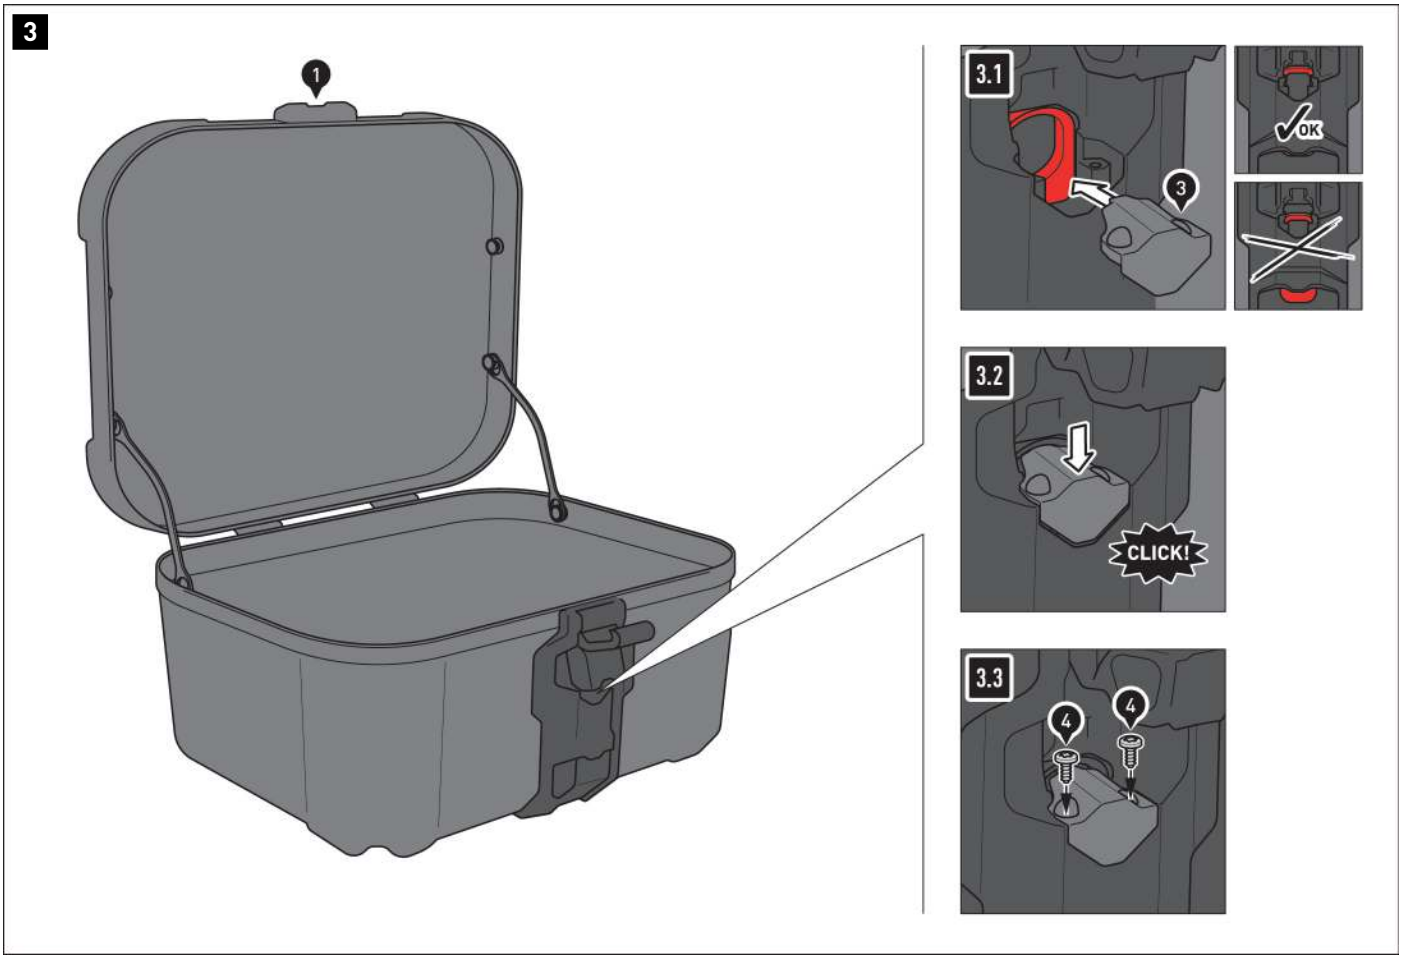

2.1 - Place the lid limiters (2) with the large openings on the mushroom-shaped supports provided
⚠ ***NOTE:*** *Pay attention to the proper use of the DUSC (1):**top case** or **side case**. Fasten the lid limiters (2) to the respective mushroom-shaped DUSC (1).*

2.2 - Pull the lid limiters (2) into fixed position.

⚠ ***NOTE:*** *Before closing the lid for the first time, the lid limiters (2) must be slightly compressed. When closing the lid, make sure that the lid limiters (2) are not trapped between the lid and the case body.*

Errors and omissions excepted
Subject to technical and design changes.

Installing lock casing connector

⚠ ***NOTE:*** *If you have opted for the DUSC lock set, this step is not necessary. Install the lock set instead.*

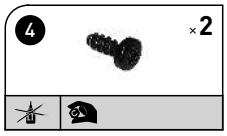

3.1 - Open the DUSC latch buckle (1) and position the latch housing connector (3) as shown.
⚠ ***NOTE:*** *Make sure the locking tab is in the unlocked (up) position. If necessary, the locking tab must be pushed up into the unlocked position.*

3.2 - Push the latch housing connector (3) down until it clicks into place.

3.3 - Screw in the latch housing connector (3) using the screws (4) and the torx key (5). Carefully tighten the screws by hand.
⚠ **WARNING: Over-tightening the screws may damage the lock casing!**

⚠ ***NOTE:*** *Ensure that the locking mechanism is in working order!*

© SW-MOTECH GmbH & Co. KG

Errors and omissions excepted
Subject to technical and design changes.

Attaching the DUSC to a top case

⚠ ***NOTE:*** *Prior to fastening, ensure that the lock (DUSC lock set) is in the open position (if applicable); see detailed drawings on the left!*

4.1 - Press the DUSC release button (1) and pull the fastening system latch buckle to the open position.

4.2 - Press the DUSC (1) with the two locking openings onto the mushroom-shaped supports of your SW-MOTECH rack.

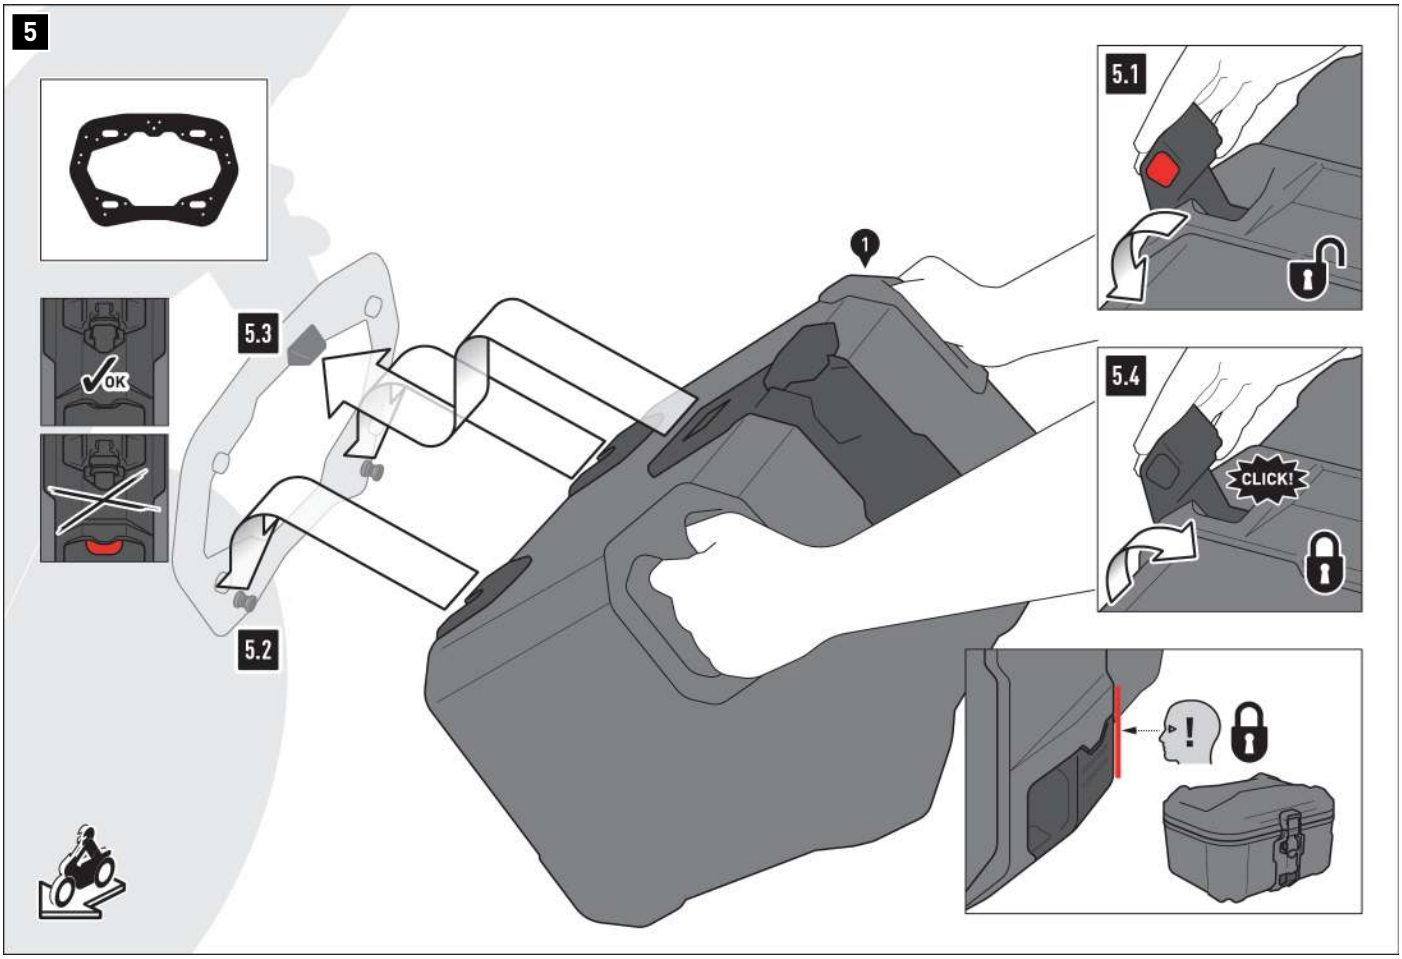

4.3 - Press the DUSC (1) with the locking opening onto the locking lug of your SW-MOTECH rack.

4.4 - Press the system latch buckle to closed position.
⚠ WARNING: You should be able to hear a clicking sound!
⚠ WARNING: Check that the DUSC is firmly in place! Make sure that the latch buckle is flush with the latch buckle case!

⚠ WARNING: Make sure that no components of the DUSC (1) can come into contact with any hot and moving parts on the vehicle!
Also ensure that all components are at least 5 cm away from hot parts as well as hot gas coming from the exhaust!
After assembly, make sure that this distance is maintained in all vehicle positions!

The content translation is automated.

Errors and omissions excepted
Subject to technical and design changes.

Attaching the DUSC to a side case

⚠ ***NOTE:*** *Prior to fastening, ensure that the lock (DUSC lock set) is in the open position (if applicable); see detailed drawings on the left!*

5.1 - Press the DUSC release button (1) and pull the system latch buckle to the open position.

5.2 - Slide the DUSC (1) with the two locking openings onto the mushroom-shaped supports of your SW-MOTECH side carrier.

5.3 - Press the DUSC (1) with the locking opening onto the locking lug of your SW-MOTECH side carrier.

5.4 - Press the system latch buckle to closed position.
⚠ WARNING: Make sure you hear it clicking into place!
⚠ WARNING: Check that the DUSC is firmly in place! Make sure that the latch buckle is flush with the latch buckle case!

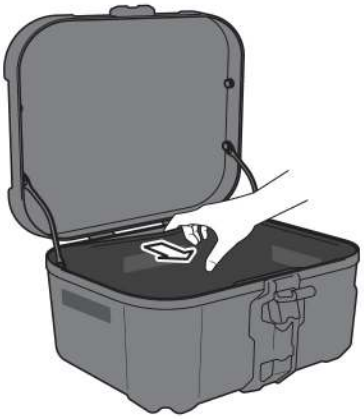

⚠ WARNING: Make sure that no components of the DUSC (1) can come into contact with any hot and moving parts on the vehicle!
Also ensure that all components are at least 5 cm away from hot parts as well as hot gas coming from the exhaust!
After assembly, make sure that this distance is maintained in all vehicle positions!

Subject to technical and design changes.

6

Removing the inlays

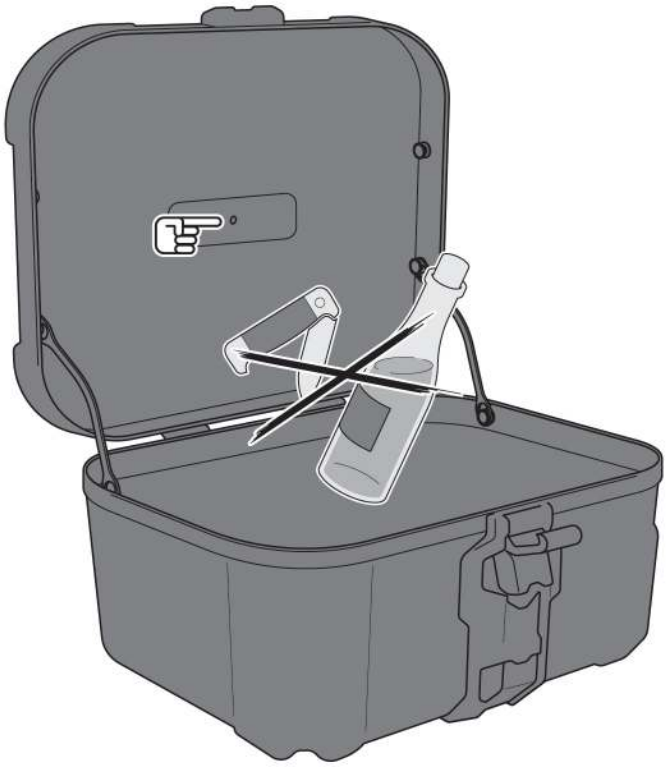

The DUSC comes with mounted inlays as standard. They can be removed if needed (e. g. for cleaning, see "Care" section).
Use a blunt object (e. g. a butter knife) to push out the **case lid inlay** that is stuck behind the frame profile; then remove the inlay from the case lid.
Remove the **inlay in the case body** from the Velcro strips on the side; then take the inlay out of the case body.

When reassembling the inlays, make sure to carefully push them behind the frame profiles. Also, press the inlay in the case body onto the Velcro strips.

The content translation is automated.
© SW-MOTECH GmbH & Co. KG

Errors and omissions excepted
Subject to technical and design changes.

7

Loading the DUSC

⚠ WARNING: Ensure that the load is evenly distributed! Ensure that the load will not slip while driving!
⚠ ***NOTE:*** *Make sure that you never store sharp-edged, pointy or similar objects that could cause injury to persons or damage to the vehicle/DUSC!*
Be particularly careful not to damage the overpressure membrane built into the lid!

Caring for DUSC / inlays

For cleaning, use **ONLY** a soft textile brush, cloth or sponge and warm soapy water! Then rinse with clean water.
Do NOT use any harsh cleaning agents, abrasive cleaning utensils or pressure washer!
Be sure to clean the DUSC after winter driving to avoid salt damage.
⚠ ***NOTE:*** *Surface materials may be subject to fluctuations in color (fading) in the event of prolonged and intensive exposure to sunlight and the elements (e.g. smog, acid rain, etc.)! SW-MOTECH is not responsible for this type of wear!*

The content translation is automated.
© SW-MOTECH GmbH & Co. KG

Errors and omissions excepted
Subject to technical and design changes.

PRODUCT-SPECIFIC NOTES

⚠ ***NOTE:*** *Observe the country-specific regulations for registering/operating your vehicle or the applicable TÜV regulations. After assembly, have parts that are subject to registration entered in the vehicle documents by your test centre.*

⚠ DANGER: Carry out a comprehensive function check before driving!

⚠ DANGER: Check that the product is properly positioned before departure and at every rest stop (every 200 km)!

⚠ DANGER: The driving/braking behavior of the motorcycle changes noticeably after the attachment of this product!

⚠ DANGER: Lean angle and ground clearance may be restricted by this product!

⚠ DANGER: The maximum vehicle load defined by the vehicle manufacturer may NOT be exceeded.
The maximum permissible load of the SW-MOTECH rack/side rack may NOT be exceeded; make sure to take into account the dead weight of the product.

Dead weight DUSC M (with inlays): 4.7 kg (10.4 lbs)
Dead weight DUSC L (with inlays): 5.0 kg (11.0 lbs)

Dead weight DUSC M (without inlays): 3.9 kg (8.6 lbs)
Dead weight DUSC L (without inlays): 4.1 kg (9.0 lbs)

Payload when used as a top case:

≤ 5 kg (≤ 11 lbs)	≤ 130km/h (≤ 80mph)

Payload when used as a side case:

≤ 10KG (≤ 22 lbs)	≤ 130km/h (≤ 80mph)

The content translation is automated.

SAFETY WARNING SYMBOL

⚠ **This warning symbol is used in these mounting instructions to warn of deadly dangers, injuries or other hazards. The words DANGER, WARNING or CAUTION are used as part of this warning symbol to convey important safety messages and information relating to the installation and use of this product. These words, together with the safety warning symbol, mean:**

⚠ **DANGER:** Indicates a hazardous situation which, if not avoided, will result in death or serious injury!

⚠ **WARNING:** Indicates a hazardous situation which, if not avoided, may result in death or serious injury!

⚠ **CAUTION:** Indicates a hazardous situation which, if not avoided, may result in minor or moderate injury!

⚠ ***NOTE:*** Important information, but not relating to a risk of death or injury (property damage only)!

GENERAL INFORMATION

⚠ **WARNING: Assembly and/or maintenance of this product requires advanced technical skill, appropriate tools, and a good understanding of tool usage and torque specifications. For your own safety, SW-MOTECH recommends having the assembly and/or maintenance carried out by a qualified and certified motorcycle workshop.**

⚠ **WARNING: If you do choose to assemble this product yourself, carefully and fully read the mounting instructions before assembly and use, and follow all instructions to avoid serious injury or death. Also observe all relevant information in the vehicle manual when mounting or using the product. IF YOU DO NOT UNDERSTAND ANY PART OF THESE MOUNTING INSTRUCTIONS OR NEED AN EXPLANATION AS TO A SPECIFIC INSTRUCTION, DO NOT ATTEMPT TO INSTALL THIS PRODUCT WITHOUT CONSULTING SW-MOTECH FOR ASSISTANCE!**

PREPARATION: Read the mounting instructions carefully and make sure that all parts on the parts list are available.

⚠ **CAUTION: Ensure that your vehicle is standing securely. Switch off the engine and remove the ignition key. Allow the engine/exhaust to cool down if necessary. Disconnect the battery when working on the electrical system. Only use proper tools and always wear safety goggles and gloves during assembly and maintenance. Have a second person help you with assembly and maintenance.**

ASSEMBLY: All parts and connections removed from the vehicle must be reinstalled according to the vehicle manufacturer's specifications or replaced with parts and hardware supplied by SW-MOTECH.

⚠ **WARNING: Secure all threads with a medium-strength liquid threadlocker, unless otherwise specified.**

⚠ **DANGER: Tightening torques not defined by SW-MOTECH must be obtained from the vehicle manufacturer or a certified motorbike workshop.**

FUNCTIONAL CHECK: After mounting the product, ensure that no moving parts are obstructed and that the function of the vehicle is not impeded. Cables and hoses must not rub against each other and/or be hindered in any way.

⚠ **WARNING: Carry out a comprehensive functionality check before you start to drive. Check the tightening torque of all connections and the tight fit of the product after the first 50 km and then at regular intervals. Mounted accessories can change the handling and stability of the vehicle.**

Errors and omissions excepted
Subject to technical and design changes.

2

Installing the lid limiter

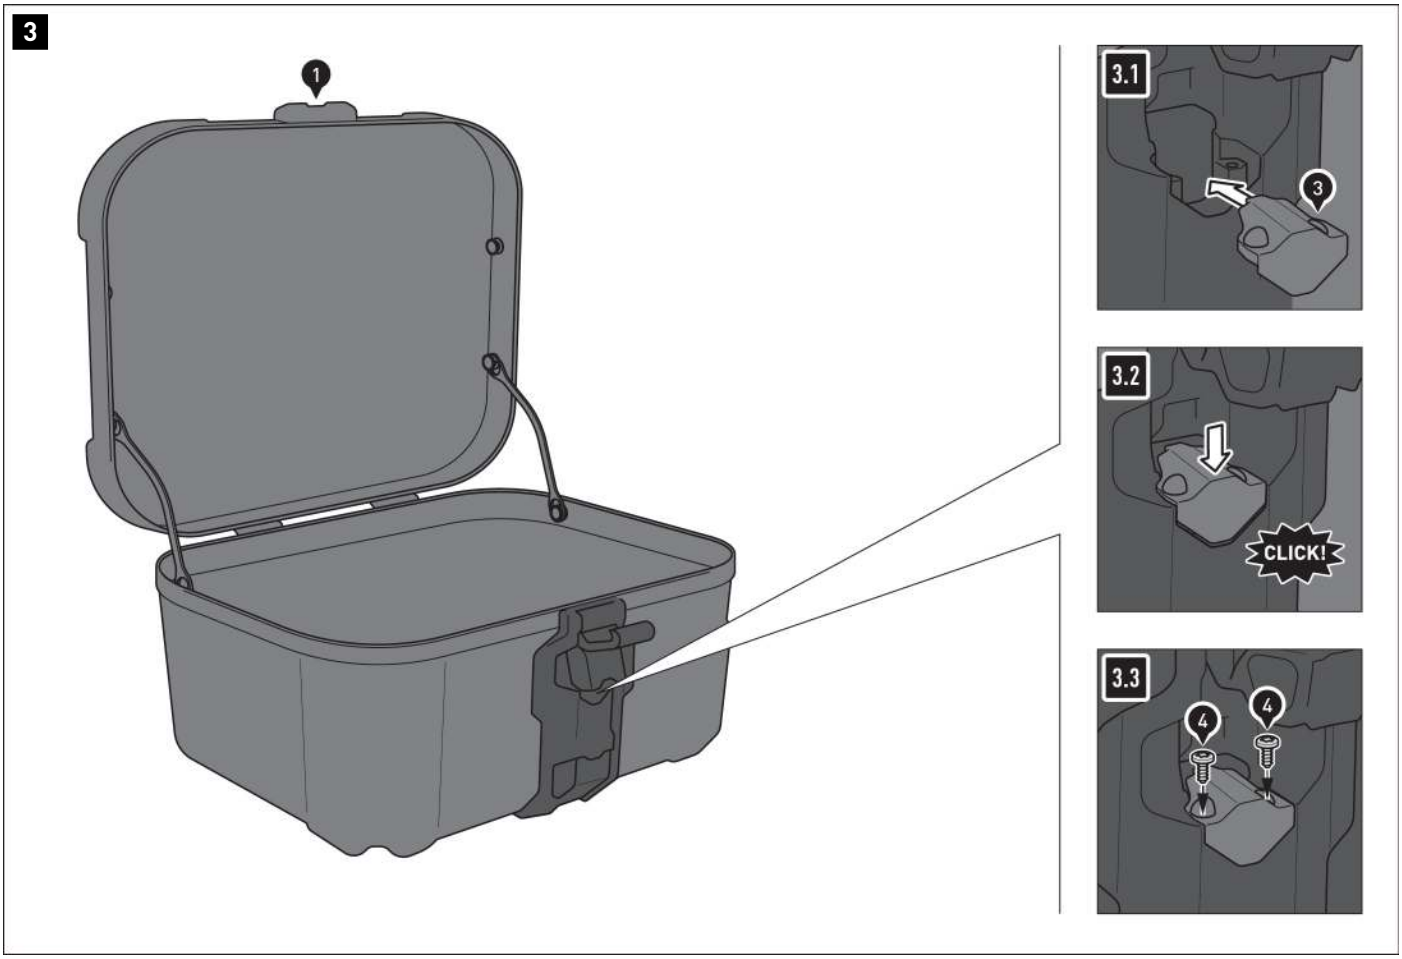

2.1 - Place the lid limiters (2) with the large openings on the mushroom-shaped supports provided
⚠ ***NOTE:*** *Pay attention to the proper use of the DUSC (1):**top case** or **side case**. Fasten the lid limiters (2) to the respective mushroom-shaped DUSC (1).*

2.2 - Pull the lid limiters (2) into fixed position.

⚠ ***NOTE:*** *Before closing the lid for the first time, the lid limiters (2) must be slightly compressed. When closing the lid, make sure that the lid limiters (2) are not trapped between the lid and the case body.*

Errors and omissions excepted
Subject to technical and design changes.

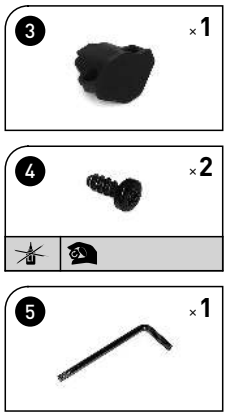

Installing lock casing connector

⚠ ***NOTE:*** *If you have opted for the DUSC lock set, this step is not necessary. Install the lock set instead.*

3.1 - Open the DUSC latch buckle (1) and position the latch housing connector (3) as shown.

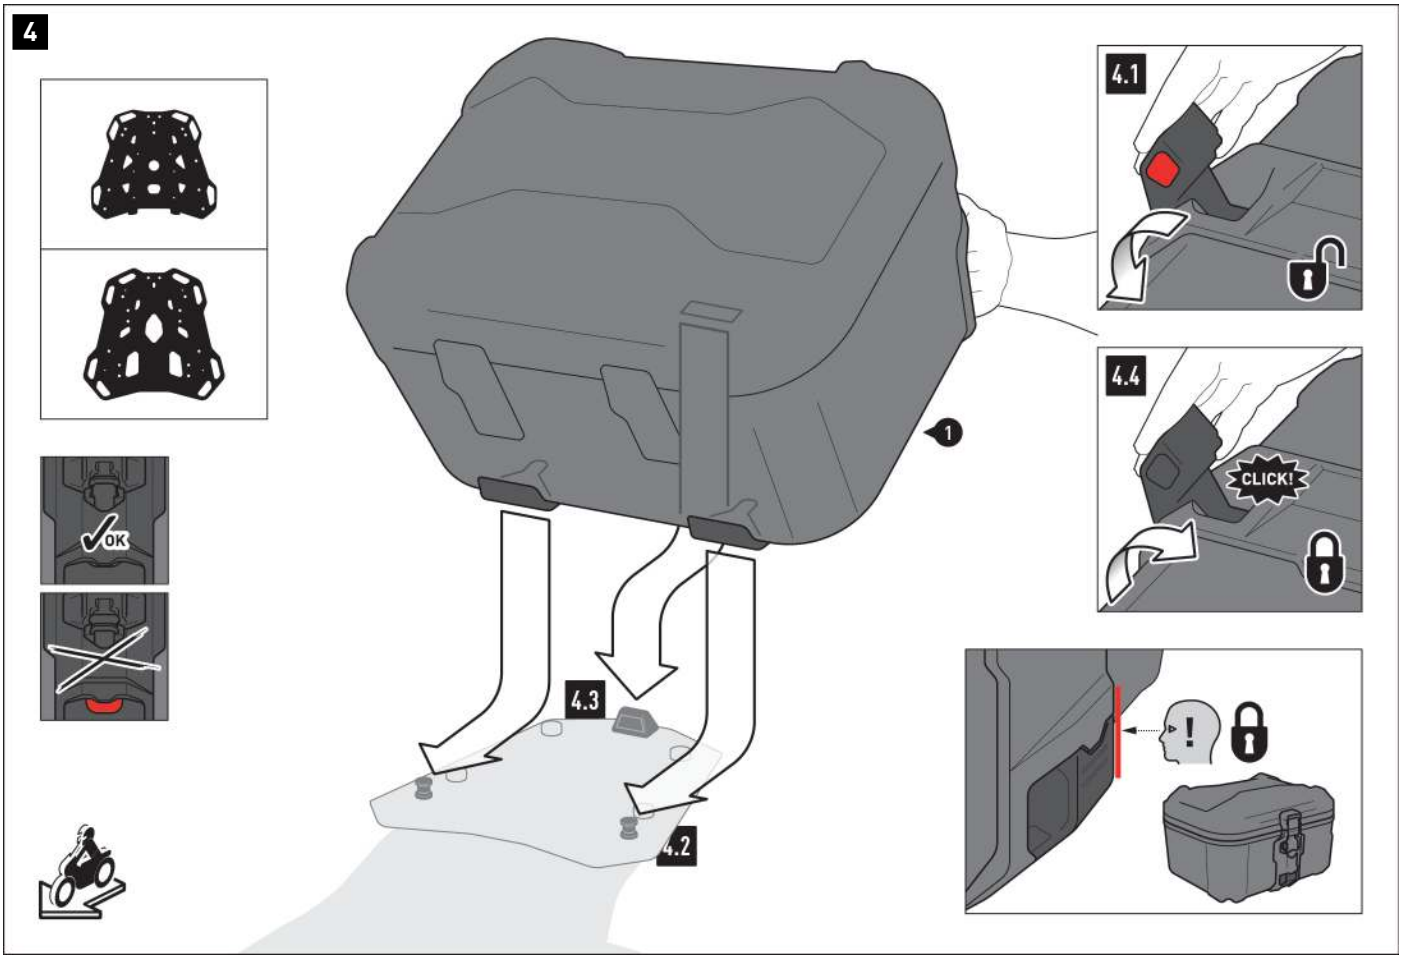

3.2 - Push the latch housing connector (3) down until it clicks into place.

3.3 - Screw in the latch housing connector (3) using the screws (4) and the torx key (5). Carefully tighten the screws by hand.
⚠ WARNING: Over-tightening the screws may damage the lock casing!

Attaching the DUSC to a top case

⚠ ***NOTE:*** *Prior to fastening, ensure that the lock (DUSC lock set) is in the open position (if applicable); see detailed drawings on the left!*

4.1 - Press the DUSC release button (1) and pull the fastening system latch buckle to the open position.

4.2 - Press the DUSC (1) with the two locking openings onto the mushroom-shaped supports of your SW-MOTECH rack.

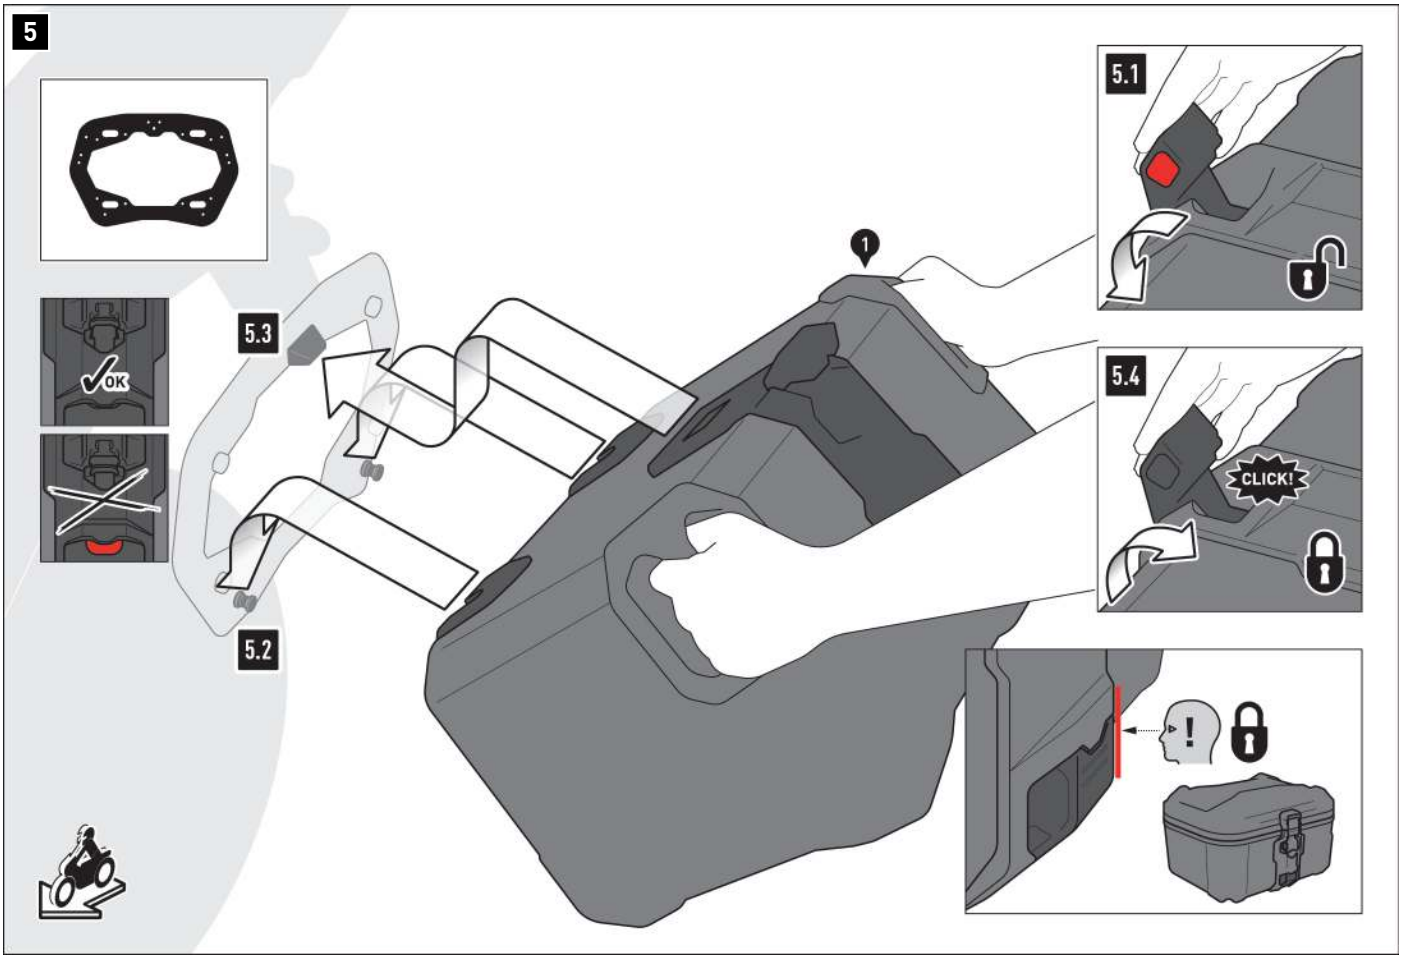

4.3 - Press the DUSC (1) with the locking opening onto the locking lug of your SW-MOTECH rack.

4.4 - Press the system latch buckle to closed position.
⚠ WARNING: You should be able to hear a clicking sound!
⚠ WARNING: Check that the DUSC is firmly in place! Make sure that the latch buckle is flush with the latch buckle case!

⚠ WARNING: Make sure that no components of the DUSC (1) can come into contact with any hot and moving parts on the vehicle!
Also ensure that all components are at least 5 cm away from hot parts as well as hot gas coming from the exhaust!
After assembly, make sure that this distance is maintained in all vehicle positions!

Attaching the DUSC to a side case

⚠ ***NOTE:*** *Prior to fastening, ensure that the lock (DUSC lock set) is in the open position (if applicable); see detailed drawings on the left!*

5.1 - Press the DUSC release button (1) and pull the system latch buckle to the open position.

5.2 - Slide the DUSC (1) with the two locking openings onto the mushroom-shaped supports of your SW-MOTECH side carrier.

5.3 - Press the DUSC (1) with the locking opening onto the locking lug of your SW-MOTECH side carrier.

5.4 - Press the system latch buckle to closed position.
⚠ WARNING: Make sure you hear it clicking into place!
⚠ WARNING: Check that the DUSC is firmly in place! Make sure that the latch buckle is flush with the latch buckle case!

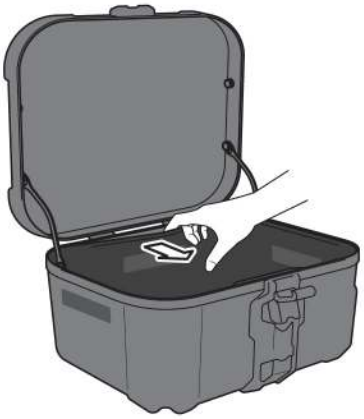

⚠ WARNING: Make sure that no components of the DUSC (1) can come into contact with any hot and moving parts on the vehicle!

6

Removing the inlays

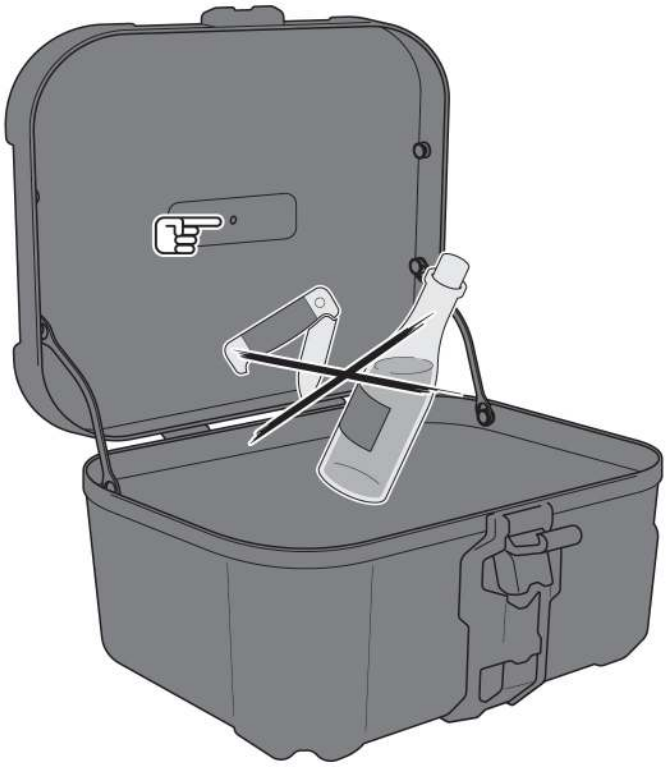

The DUSC comes with mounted inlays as standard. They can be removed if needed (e. g. for cleaning, see "Care" section).
Use a blunt object (e. g. a butter knife) to push out the **case lid inlay** that is stuck behind the frame profile; then remove the inlay from the case lid.
Remove the **inlay in the case body** from the Velcro strips on the side; then take the inlay out of the case body.

When reassembling the inlays, make sure to carefully push them behind the frame profiles. Also, press the inlay in the case body onto the Velcro strips.

Errors and omissions excepted
Subject to technical and design changes.

7

Loading the DUSC

⚠ WARNING: Ensure that the load is evenly distributed! Ensure that the load will not slip while driving!
⚠ ***NOTE:*** *Make sure that you never store sharp-edged, pointy or similar objects that could cause injury to persons or damage to the vehicle/DUSC!*
Be particularly careful not to damage the overpressure membrane built into the lid!

Caring for DUSC / inlays

For cleaning, use **ONLY** a soft textile brush, cloth or sponge and warm soapy water! Then rinse with clean water.
Do NOT use any harsh cleaning agents, abrasive cleaning utensils or pressure washer!
Be sure to clean the DUSC after winter driving to avoid salt damage.
⚠ ***NOTE:*** *Surface materials may be subject to fluctuations in color (fading) in the event of prolonged and intensive exposure to sunlight and the elements (e.g. smog, acid rain, etc.)! SW-MOTECH is not responsible for this type of wear!*

PRODUCT-SPECIFIC NOTES

⚠ ***NOTE:*** *Observe the country-specific regulations for registering/operating your vehicle or the applicable TÜV regulations. After assembly, have parts that are subject to registration entered in the vehicle documents by your test centre.*

⚠ DANGER: Carry out a comprehensive function check before driving!

⚠ DANGER: Check that the product is properly positioned before departure and at every rest stop (every 200 km)!

⚠ DANGER: The driving/braking behavior of the motorcycle changes noticeably after the attachment of this product!

⚠ DANGER: Lean angle and ground clearance may be restricted by this product!

⚠ DANGER: The maximum vehicle load defined by the vehicle manufacturer may NOT be exceeded.
The maximum permissible load of the SW-MOTECH rack/side rack may NOT be exceeded; make sure to take into account the dead weight of the product.

Dead weight DUSC M (with inlays): 4.7 kg (10.4 lbs)
Dead weight DUSC L (with inlays): 5.0 kg (11.0 lbs)

Dead weight DUSC M (without inlays): 3.9 kg (8.6 lbs)
Dead weight DUSC L (without inlays): 4.1 kg (9.0 lbs)

Payload when used as a top case:

≤ 5 kg (≤ 11 lbs)	≤ 130km/h (≤ 80mph)

Payload when used as a side case:

≤ 10KG (≤ 22 lbs)	≤ 130km/h (≤ 80mph)

ENGLISH ·Thank you for choosing this premium product from SW-MOTECH. Visit our online shop for more information (e.g. model assignments). Required documents (e.g. national type approval) are available there for you to download.
Please read and understand all the instructions, safety information and warnings in these mounting instructions before mounting and using the product in order to avoid injury and damage. Keep these mounting instructions for reference.
This product was developed for vehicles in factory condition. Compatibility with original accessories or accessories from other manufacturers cannot be guaranteed.
These mounting instructions have been prepared to the best of our current knowledge. No legal claims relating to accuracy can be made. Errors and omissions excepted. We reserve the right to make technical and design changes. The copyright is held by SW-MOTECH.

SAFETY WARNING SYMBOL

⚠ **This warning symbol is used in these mounting instructions to warn of deadly dangers, injuries or other hazards. The words DANGER, WARNING or CAUTION are used as part of this warning symbol to convey important safety messages and information relating to the installation and use of this product. These words, together with the safety warning symbol, mean:**

⚠ **DANGER:** Indicates a hazardous situation which, if not avoided, will result in death or serious injury!

⚠ **WARNING:** Indicates a hazardous situation which, if not avoided, may result in death or serious injury!

⚠ **CAUTION:** Indicates a hazardous situation which, if not avoided, may result in minor or moderate injury!

⚠ ***NOTE:*** Important information, but not relating to a risk of death or injury (property damage only)!

GENERAL INFORMATION

⚠ **WARNING: Assembly and/or maintenance of this product requires advanced technical skill, appropriate tools, and a good understanding of tool usage and torque specifications. For your own safety, SW-MOTECH recommends having the assembly and/or maintenance carried out by a qualified and certified motorcycle workshop.**

⚠ **WARNING: If you do choose to assemble this product yourself, carefully and fully read the mounting instructions before assembly and use, and follow all instructions to avoid serious injury or death. Also observe all relevant information in the vehicle manual when mounting or using the product. IF YOU DO NOT UNDERSTAND ANY PART OF THESE MOUNTING INSTRUCTIONS OR NEED AN EXPLANATION AS TO A SPECIFIC INSTRUCTION, DO NOT ATTEMPT TO INSTALL THIS PRODUCT WITHOUT CONSULTING SW-MOTECH FOR ASSISTANCE!**

PREPARATION: Read the mounting instructions carefully and make sure that all parts on the parts list are available.

⚠ **CAUTION: Ensure that your vehicle is standing securely. Switch off the engine and remove the ignition key. Allow the engine/exhaust to cool down if necessary. Disconnect the battery when working on the electrical system. Only use proper tools and always wear safety goggles and gloves during assembly and maintenance. Have a second person help you with assembly and maintenance.**

ASSEMBLY: All parts and connections removed from the vehicle must be reinstalled according to the vehicle manufacturer's specifications or replaced with parts and hardware supplied by SW-MOTECH.

⚠ **WARNING: Secure all threads with a medium-strength liquid threadlocker, unless otherwise specified.**

⚠ **DANGER: Tightening torques not defined by SW-MOTECH must be obtained from the vehicle manufacturer or a certified motorbike workshop.**

FUNCTIONAL CHECK: After mounting the product, ensure that no moving parts are obstructed and that the function of the vehicle is not impeded. Cables and hoses must not rub against each other and/or be hindered in any way.

⚠ **WARNING: Carry out a comprehensive functionality check before you start to drive. Check the tightening torque of all connections and the tight fit of the product after the first 50 km and then at regular intervals. Mounted accessories can change the handling and stability of the vehicle.**
